### Babushkas & Hard Hats: The Steel Town Tour

This tour gets to the heart of the steel town story, getting to know the people, places and historic events that once made Pittsburgh the epicenter of steel production. Immigrants and migrants were drawn to the region as industry rose, bringing a rich collection of cultures and traditions with them as they forged new lives. Visits to the Carrie Blast Furnaces, The Bost Building, and Pump House root this tour in the Pittsburgh experience, and a special immigrant-inspired lunch elicits the smells and flavors of Grandma's kitchen. (Lunch includes, pierogies, halupki, haluski, Pickled Cabbage & Paprika Crème Fresh, a cookie and soft drink.)
